

## 1.3 LIVING WITH MONSOONS

## Compare and Contrast Monsoons

Use what you've learned about monsoons in Section 1.3 to identify the similarities and differences between wet monsoons and dry monsoons. Record your findings in the Y-Notes chart and answer the questions below.

1. List details about **wet monsoons** in the left branch of the Y.
2. List details about **dry monsoons** in the right branch of the Y.
3. Write any details that appear in both branches at the bottom part of the Y, under **Similarities**. After you move a detail down, draw a line through it in the two top branches.

**Compare and Contrast** How are wet monsoons and dry monsoons alike? How are they different? Write at least two complete sentences to explain.
