

SECTION 1 GEOGRAPHY
GeoActivity

Use with South Asia Geography & History, Section 1.4, in your textbook.

Go to Interactive Whiteboard GeoActivities at
myNGconnect.com to complete this activity online.

1.4 RESOURCES AND LAND USE

Turn Resources into Products

Follow the paths below to see how South Asia's resources are turned into everyday products. Draw and label each missing step in the flow chart. Use the research links at **Connect to NG** to fill in the blanks and find a fact about the resource or the product.

Natural Resource:
 Agriculture

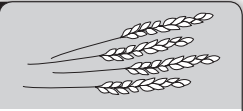

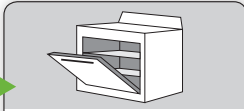

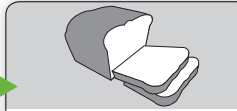

How It Is Refined

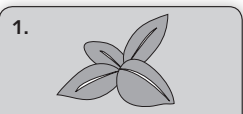

How It Is Processed

Common Product

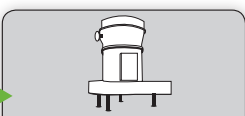

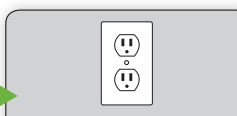

Fast Fact

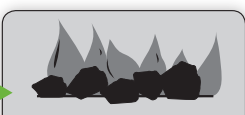

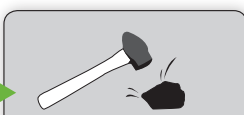

example

 wheat	→	 mill	→	 bake	→	 bread
--	---	---	---	--	---	--

1.  tea leaves	→		→		→	
--	---	---	---	--	---	---

Natural Resource:
 Mining

2. 	→	 mill	→		→	 electricity
--	---	---	---	--	---	--

3.  iron ore	→	 smelt	→		→	
--	---	--	---	--	---	---
